Our History and Vision

This well illustrated publication marks the fortieth anniversary of the institution of the Cross of Saint Patrick LOL 688. Our History and Vision recounts the story of how the lodge was formed and the key personalities involved.

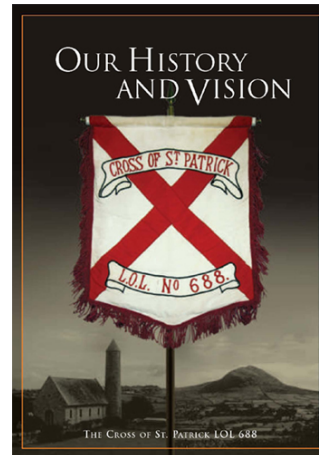

Drawing heavily upon the lodge minute books the publication recounts the lodge's high points, its gradual decline and how it re-established its renewal in the space of a few short years. This lodge history clearly brings out the ethos of the lodge and how its vision was recaptured and became instrumental to restoring the lodge to its former position with the Orange Institution.

The various strategies employed by the lodge provide a model for other lodges to adopt.
